What's New

Topics:

- [Managing Polycom Studio USB Video Bar](#)

Polycom Companion 1.1 delivers the following features.

Managing Polycom Studio USB Video Bar

You can use Polycom Companion to update the Polycom Studio USB video bar firmware, show its basic information, configure its user and admin settings, and access its diagnostics.

The following features are available:

- Initialize the Polycom Studio USB video bar by using the setup wizard
- View Polycom Studio USB video bar information
- Update the Polycom Studio USB video bar and the remote control
- Configure Polycom Studio USB video bar user and admin settings:
 - Audio and video configurations
 - Wi-Fi configurations
 - Bluetooth pairing options
 - Provisioning server configurations
 - Import and export settings for configuration files
 - Audio test settings
 - Settings to display camera info on-screen
 - Log download settings
 - Camera tracking settings

Release History

Software Version	Release Date	Description
1.1	February 2019	Support for managing the Polycom Studio USB video bar
1.0	August 2018	Support for Polycom EagleEye Mini <ul style="list-style-type: none">▪ Update the firmware▪ Show camera status

Resolved Issues

There are no resolved issues in this release.

Known Issues

The following table lists known issues and suggested workarounds for Polycom Companion 1.1.

Note: These release notes do not provide a complete listing of all known issues that are included in the software. Issues not expected to significantly impact customers with standard voice or video conferencing environments may not be included. In addition, the information in these release notes is provided as-is at the time of release and is subject to change without notice.

Category	Issue ID	Found in Release	Description	Workaround
Downloading	EN-117731	1.1	You can't install the application by clicking Run after downloading PolycomCompanionSetup.exe from a Microsoft Edge browser.	Select Save or Save as to save the installation package to your local disk, then install it from Windows File Explorer.

Limitations

The following table lists limitations and constraints when using the Polycom Companion.

Mac Version Compatibility with Microsoft Skype for Business

Polycom Companion mac version doesn't work when Microsoft Skype for Business is running. Exit the latter before using Polycom Companion.

Notes on Polycom Studio USB Bar Configuration

Caution: Don't plug out the USB cable or power cable of the Polycom Studio USB bar while changing the its settings on the Polycom Companion. This may cause unexpected errors.

Interoperability

Topics:

- [Products Tested with Polycom Companion](#)
- [Language Support](#)
- [Ports](#)

The following sections provide information for devices tested with Polycom Companion, supported languages, and port usage.

Products Tested with Polycom Companion

Polycom products are tested extensively with a wide range of products. You can view a list of the products that have been tested for compatibility with this release.

Polycom strives to support any system that is standards-compliant and investigates reports of Polycom systems that are not interoperable with other vendor systems. Note that the following list is not a complete inventory of compatible equipment, but the products that have been tested with this release.

Note: Polycom recommends that you upgrade all of your Polycom systems with the latest software versions. Any compatibility issues may already have been addressed by software updates. Refer to Polycom Service Policies at <http://support.polycom.com/content/support/service-policies.html> to see the Current Polycom Interoperability Matrix.
